Additional Radiographic Services
Also Available

Become a patient and help our dental hygiene students fulfill their course requirements. Each student in our dental hygiene program needs to see about 35 patients a year. That can be tough. Great Falls College's Dental Hygiene Clinic is a teaching facility, providing client services under the supervision of a licensed dentist and registered dental hygiene instructors. You and/or your child would be providing great opportunities to help our students learn while getting a teeth cleaning and x-rays affordably.
